# COUNTRY HOME

SEASONS IN CERAMICS

*Authentic, skillfully hand-crafted tile made in  
America using old world techniques . . .*

Cattail Brown

Dove

Lichen Green

Morel

Morning White

Mushroom

Pheasant Green

Quail Grey

Robin's Egg Blue

Country Home tiles echo the seasons with a rich palette of colors and decoratives inspired by warm summer days, a garden path, the fall harvest and a cozy cabin. Soft hues and matte glazes reminiscent of the early Arts & Crafts movement.

**The Epro difference** - Since 1963 Epro Tile has quietly yet meticulously used old world techniques to produce authentic, hand-crafted tile. Today while automated assembly lines and imports flood the marketplace with mundane machine made tile, Epro remains one of America's premier handcrafted tile manufacturers.

**American Craftsmanship** - The most distinguishing characteristic of Epro tile is a byproduct of our manufacturing process. Because each tile is made individually, no two tiles are alike. Each is an original. That means each installation is, indeed, a unique work of art, which adds to the quality and value that define any handcrafted product.

**TILE SIZES:** 2"× 2", 3"× 3", 4"× 4", 6"× 6", 8"× 8", 12"× 12"; 3"× 6", 2 5/8"× 8", 4"× 8", 6"× 12",  
**HEXAGON;** 4", 6", 12" - **OCTAGON;** 6", 8", 12" - **PENTAGON;** 6", 8", 12" - **SIZES AVAILABLE IN ALL COLORS**

Epro Tile is located amid the clay rich region of Ohio and makes ecologically inert ceramic wall and floor tiles. We are proud of the way we treat the environment by using clays sourced within 100 miles of our facility that are then minimally processed from their natural state through to the finished product.

We recycle a waste product of coal-fired electricity production into the body of many of our unglazed tiles. Additionally, we reclaim our own liquid waste glaze residue and our scrap clay and put it back into our clay body, which makes our already dense clay body all the more durable. Heat captured from our kilns is used to dry our tiles prior to firing, as well as heat much of our plant during cooler months. These measures not only help maintain the environment, but eliminate several items from the waste stream.

Even our off grade tiles are stacked in our yard and picked over endlessly by residential and commercial users alike to create their own individual masterpieces so they never end up in a landfill. The recycled use of post-industrial materials in our tiles, the low impact manufacturing methods we use, the products we make with abundant, local raw materials, and the reclamation of much of our own waste, help us achieve our goal to keep our environment clean and safe.

*Comfortable, casual with a touch of elegance, Epro's Country Home tiles capture your sense of style.*

# GARDEN PATH

Country Home Garden Path collection brings the beauty of the season indoors. The tiles combine the subtlety of a single bloom with the vivid energy in the pansy's plentiful blossoms. With a breath of fresh air and a promise of new life, this collection spills the sumptuousness of spring into your home.

Polychrome decos and borders are a fixed palette of colors available in Morning White, Dove, Mushroom, and Pheasant Green backgrounds only. For example, all Daffodil decos have a yellow flower with green leaves and stems.

## HARVEST

Never has a tile collection so perfectly captured the magic of a crisp fall day. The Country Home collection pairs the majestic colors of falling leaves with an occasional blossom and plentiful acorns. Reminiscent of glorious hues swirled together by gentle winds, the collection graces your home with warmth and comfort.

### TECH NOTES

Because our tile is handcrafted, it is not possible to install Epro Tile with the precision normally practiced with machine made tile. In fact, your installation's non-uniform appearance, surface imperfections, or fingerprints will contribute to the warmth, charm, and character created exclusively with the use of Epro products. Epro tiles are nominally sized; means a 6" x 6" tile will be 5 5/8" x 5 5/8" design size, all tiles sold assuming a 3/8" grout joint. Because of the handcrafted nature of our tiles, all dimensions given are approximate.

**Ordering** - Most Epro tiles are packaged 10 square feet to the carton including a 3/8th inch grout joint. Trim and decorative tiles are packaged per piece.

**Installation** - Installation techniques for Epro tiles are much the same as those used in standard practice with quarry tile. Specifications for every situation can be found in the Handbook of Ceramic Tile Installation published by the Tile Council of North America. For additional slip and/or wear resistance on Epro tiles, an optional abrasive finish is available.

**Maintenance** - Regular cleaning is easy, just sweep regularly and damp mop as necessary, using warm water and a neutral cleaner. To clean stubborn spots or grout joints, use a stiff, natural bristle brush. Maintenance guides are available for individual products from your local Epro Tile dealer.

### LEED & Green Information

We are proud of the way we treat the environment by using clays sourced within 100 miles of our facility that are then minimally processed from their natural state through to the finished product. This fact may aid in LEEDS points awarded for regionally manufactured materials. (LEED Categories 5.1 &/or 5.2) Ceramic tiles by their very nature are inert, non-combustible, non-toxic and are completely free of any volatile organic compounds. Further, ceramic tiles allow for the use of low VOC adhesives & grouts that will not reduce indoor environmental air quality. We recycle a waste product of coal-fired electricity production into the body of many of our unglazed tiles.

Epro tiles conform to ANSI 137.1 as Special Purpose Tile. Our tiles are produced, graded and packed to our stated specifications. When requested by the purchaser prior to production, a Master Grade Certificate may be issued certifying compliance with properties mutually agreed upon by purchaser and Epro Tile Inc.
