Heritage Unglazed

Handcrafted by skilled artisans employing old-world techniques, the tiles in the Heritage Collections reflect warm character, charm and dignity. Style and durability make this collection the perfect answer for floors, patios and walls.

Antigua (full range)
Warm, wide range of colors that replicate the look of antique, handmade brick. Installation shown includes optional Earth Products Natural Accents — real leaves pressed into the tile and fired.

Antigua Light
Visually sorted lighter shades of Antigua (full range).

Epro Cotta
An American handcrafted terra cotta with all the same character and charm of aged European cotta.

Red
The traditional, pleasing light to dark ranges of an old-fashioned red brick floor.

- Small Oggee: 1 1/4" x 6"
- Royal Cord: 1 7/8" x 6"
- Pencil Liner: 7/8" x 6"
Because our tile is handcrafted, it is not possible to install Epro Tile with the precision normally practiced with machine made tile. In fact, your installation, non-uniform appearance, surface imperfections, or fingerprints will contribute to the warmth, charm, and character created exclusively with the use of Epro products.

Epro tiles are nominally sized; means a 6” x 6” tile will be 55/8” x 55/8” design size, all tiles sold assuming a 3/8” grout joint. Because of the handcrafted nature of our tiles, all dimensions given are approximate.

Installation
Installation techniques for Epro tiles are much the same as those used in standard practice with quarry tile. Specifications for every situation can be found in the Handbook of Ceramic Tile Installation published by the Tile Council of North America. For additional slip and/or wear resistance on Epro tiles, an optional abrasive finish is available.

Maintenance
Regular cleaning is easy, just sweep regularly and damp mop as necessary, using warm water and a neutral cleaner. To clean stubborn spots or grout joints, use a stiff natural bristle brush. Maintenance guides are available for individual products from your local Epro Tile dealer.

Note:
The unique nature of the Sandstone Collection colors are such that we recommend a minimum of two thorough coats of Aqua Mix, Sealer’s Choice Gold 15, or an equivalent. Important: In regularly wet areas, such as showers, it is common for some Sandstone tiles to darken and lighten as they become wet and then dry. In cooking areas, around a stove or oven, the unique nature of the Sandstone Collection tiles may contribute to the warmth, charm, and character created exclusively with the use of Epro products.

Ordering
Most Epro tiles are packaged 10 square feet to the carton including a 3/8 inch grout joint. Trim and decorative tiles are packaged per piece.

LEED & Green Information
We are proud of the way we treat the environment by using clays sourced within 100 miles of our facility that are then minimally processed from their natural state through to the finished product. This fact may aid in LEEDS points awarded for regionally manufactured materials. (LEED Categories 5.1 &/or 5.2) Ceramic tiles by their very nature are inert, non-combustible, non-toxic and are completely free of any volatile organic compounds.

Further, ceramic tiles allow for the use of low VOC adhesives & grouts that will not reduce indoor environmental air quality. We recycle a waste product of coal-fired electricity production into the body of many of our unglazed tiles.

Additionally, we reclaim our own liquid waste glaze residue and our scrap clay and put it back into our clay body, which makes our already dense clay body all the more durable. Heat captured from our kilns is used to dry our tiles prior to firing, as well as heat much of our plant during cooler months. These measures not only help maintain the environment, but eliminate several items from the waste stream.

Even our off grade tiles are stacked in our yard and picked over endlessly by residential and commercial users alike to create their own individual masterpieces so they never end up in a landfill. The recycled use of post-industrial materials in our tiles, the low impact manufacturing methods we use, products we make with abundant, local raw materials, and the reclamation of much of our own waste help us achieve our goal to help keep our environment clean and safe.

Epro Tile conforms to ANSI 137.1 as Special Purpose Tile. Our tiles are produced, graded and packed to our stated specifications. When requested by the purchaser prior to production, a Master Grade Certificate may be issued certifying compliance with properties mutually agreed upon by purchaser and Epro Tile.

Since 1963, Epro Tile has been dedicated to preserving the heritage, beauty and utility of handcrafted ceramic tile.

Today, Epro Tile is one of America’s premier manufacturers of authentic handcrafted tile, offering a complete product line that features an impressive array of sizes, colors, and special effects.

The preferred choice of interior designers and discriminating homeowners,
Epro Tile can be found in the finer homes of America, walkway’s of exclusive shopping centers, aisles of quaint restaurants as well as in celebrity swimming pools.
Epro Tile complements classic as well as contemporary environments, adding character that no machine can duplicate. The possibilities are infinite: the only limit is your imagination.

Since Epro tiles are made by hand, no two tiles are exactly alike. Therefore your project will be an authentic original creation reflecting your personal tastes and appreciation for high standards, meticulous quality and hand craftsmanship.
